1. North Vietnam

Detailed analysis of low-level photography taken last week shows a Chinese Communist - built fast patrol boat operating near Haiphong. This is the first sighting of this class in North Vietnamese waters.

3. India

Indian Defense Minister Chavan expects Pakistan and Communist China to cooperate in harassing the Indians in Kashmir, along the Sino-Indian border and in areas of tribal unrest. Other senior officials, including Prime Minister Gandhi, apparently believe that the Pakistanis or the Chinese were the perpetrators of the recent series of terrorist bombings on the railroads of eastern India.

4. Communist China

There is new evidence of friction along the Sino-Soviet border in Manchuria.

6. Egypt

Nasir seems to be drifting back to a policy of open hostility toward Saudi Arabia's King Faysal. Cairo has reinstituted its "Enemies of God" radio programs, and the main "enemy" being pilloried in these broadcasts is Faysal.

[REDACTED]

[REDACTED] We should get a further glimpse of Nasir's intentions in a major speech he has scheduled on May Day.

7. Dominican Republic

There has been no major trouble today in the wake of last evening's shooting. The principal political leaders, including Bosch, seem to have their eyes on the June 1 elections and disposed to try to keep the lid on.

8. Rhodesia

[REDACTED]

[REDACTED] sanc-
tions have not yet had a serious impact on the Rhodesian economy, and there is nothing out of Salisbury to indicate that the Rhodesians are prepared to make major concessions to get them lifted.
